For the theme vocabulary: the student should track his/her finger under the word that goes with the picture and say the word with my voice. When the vocabulary is well known, he/she may use the wordlist instead of the pictures to say with my voice and track under the word. This section will enhance oral and sight vocabulary, and is done when we are working on a particular theme eg. Halloween in the last two weeks of October. The theme vocabulary is placed in the correct order for the year.
