

SCHOOL DISTRICT NO. 71 (COMOX VALLEY)

Policy Manual

POLICY	1001
Date	May 26, 2009
Revision	4

POLICY FORMATION and REVIEW

Policy development and revision is a primary function of the Board of Education. Policies and their related regulations provide a guide and direction for the effective operation of the district by setting guiding principles, establishing procedures that are open and visible, and clarifying roles and responsibilities.

The board believes that systematic ongoing review of its policies enhances operational effectiveness and helps to create organization flexibility and adaptability to changing circumstances. The necessity to communicate policies and direction requires availability of and access to current information and the board policy manual is a critical document in meeting this organizational need.
